To: The Hiring Committee Syntax Software Solutions PLC Bole Dembel, Amir
Commercial Complex Addis Ababa, Ethiopia

Subject: Application for Software Development Internship

Dear Hiring Team,

I am writing to express my strong interest in the Software Development Internship at Syntax Software Solutions PLC. As a high-performing 4th-year Software Engineering student at Haramaya University currently entering my internship semester, I am eager to contribute my technical expertise, problem-solving ability, and passion for scalable software solutions to your innovative team. Working under strict deadlines strengthened my ability to apply software development lifecycle (SDLC) principles, agile collaboration, version control (Git), and secure coding practices to deliver a reliable, user-centered application.

Beyond software development, I offer a unique “hardware-to-software” analytical perspective. With over three years of hands-on experience diagnosing and repairing complex electronic systems such as mobile phones and televisions, I have developed advanced troubleshooting skills, attention to detail, and systems-level thinking. This background enhances my ability to understand performance optimization, system reliability, and technical integration challenges.

I am particularly drawn to Syntax Software Solutions PLC because of your commitment to delivering scalable web, mobile, and enterprise solutions that contribute to Ethiopia’s digital transformation. I am eager to contribute meaningfully to ongoing projects, continuously learn from experienced engineers, adapt quickly to new technologies, and uphold high standards of professionalism, teamwork, and accountability.

I am confident that my technical foundation, leadership experience, adaptability, and strong work ethic align well with the expectations of a competitive software development internship. I would welcome the opportunity to further discuss how I can add value to your team.

Thank you for your time and consideration.

Sincerely,
Minase Girma Talila
